

Lecture Demonstration Requirements

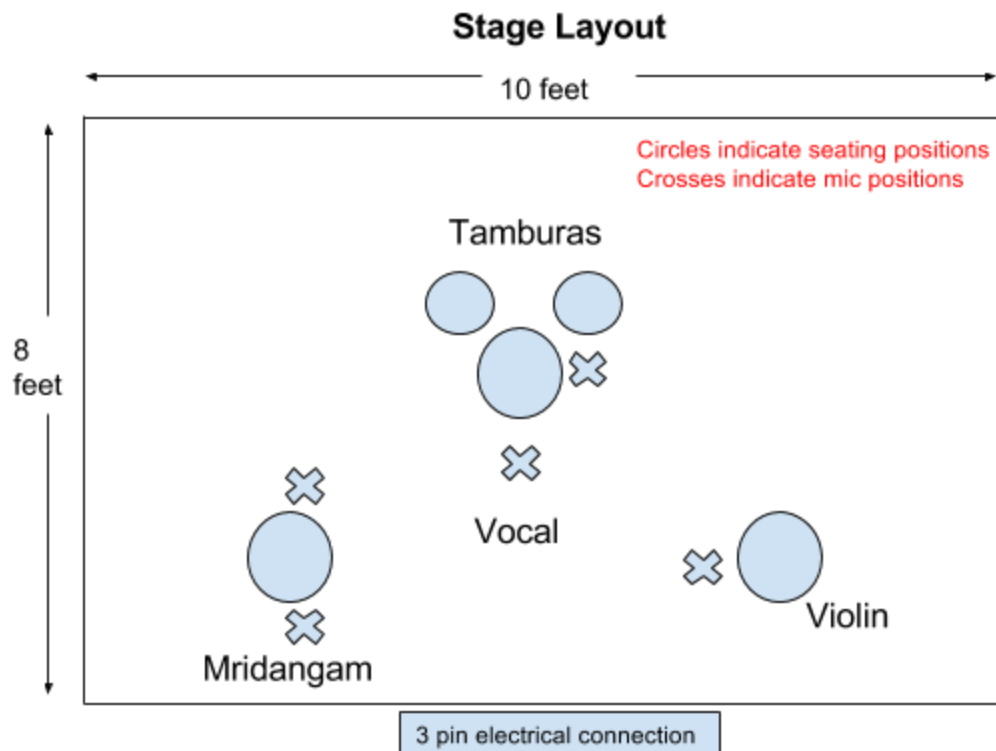

Musicians

- 1 Vocal, Violin, Mridangam, 2 Tamburas

Stage Requirements

- Platform on the stage:
 - Size should be 10 feet x 8 feet
 - Should be raised approximately by 2 feet
 - Should be fully covered with a white sheet
- Sound/Electricals:
 - 5 microphones with short stands for sitting down on the raised platform (2 for mrdangam, 1 for tambura, 1 for vocal, 1 for violin)
 - 3 pin electrical connection required at the front of the stage (this will be kept below the raised platform)
- Lighting:
 - Please do not make the stage lighting too bright
 - Auditorium lights must be switched off or dimmed during the concert
- Other:
 - 6 bottles of water (all brand label stickers to be removed from the bottles) and one flask of hot water will be required on stage.

Kindly refer to the diagram given below for the stage set up, microphones and seating positions.

Note: Please request the audience to switch off cell phones and remain seated during pieces. Also, please make an announcement that flash photography is not permitted and audio or video recordings are not permitted without receiving prior permission from me.

Sound and Microphone Requirements

Given below are a short description of the instruments in the lecture demonstration and a tech rider with the specifications of the microphones required for each of them.

- Voice, Violin
- Mridangam - A two sided drum with a treble surface on one side and bass surface on the other side.
- Tambura: A 4 stringed instrument providing the drone.

Tech Rider for Carnatic Concert

| Microphone | Number | Source | Alternate | Stand required |
